

International Conference on Artificial Intelligence and Smart Applications **(ICAISA-2026)**

Publication Ethics and Malpractice Statement

The Organizing Committee of the Conference is committed to maintaining the highest standards of publication ethics and integrity. All submitted papers will undergo a peer review process and authors, reviewers, editors, and conference organizers are expected to follow ethical publishing practices.

1. Publication and Editorial's Responsibilities

The Conference Editorial Committee is responsible for ensuring a fair, transparent, and unbiased review process for all submitted manuscripts.

The editorial team shall:

- Evaluate manuscripts only on the basis of academic merit, originality, technical quality, clarity, and relevance to the conference themes.
- Ensure confidentiality of submitted manuscripts.
- Avoid any conflict of interest while handling submissions.
- Take appropriate action in cases of suspected ethical misconduct, plagiarism, duplicate submission, or fabricated data.
- Ensure that accepted papers meet the publication standards and ethical requirements of the conference proceedings.

2. Peer Review Policy

All papers submitted to the conference will undergo a peer review process by qualified experts in the relevant field.

The review process aims to ensure:

- Originality of research work
- Technical and scientific quality
- Relevance to conference themes
- Clarity and correctness of presentation

Reviewers are expected to:

- Maintain confidentiality of manuscripts.
- Provide objective and constructive comments.
- Identify relevant published work not cited by the authors.
- Inform the editors about any possible ethical concerns or conflicts of interest.

- Decline review assignments if they are not qualified or if conflicts of interest exist.

The decision regarding acceptance or rejection of papers shall be based on reviewer recommendations and editorial evaluation.

3. Author Responsibilities

Authors submitting papers to the conference must ensure that:

- The manuscript is original and has not been published elsewhere.
- The manuscript is not simultaneously submitted to another conference or journal.
- Proper acknowledgment of the work of others has been provided.
- All listed authors have significantly contributed to the research work.
- Data presented in the manuscript are genuine and accurate.
- Any form of plagiarism, data fabrication, or falsification is strictly avoided.

Authors should also disclose any financial or institutional conflict of interest related to the submitted work.

4. Plagiarism Policy

The conference follows a strict plagiarism policy.

- All submitted papers must be checked using plagiarism detection software (such as Turnitin)
- Manuscripts found to contain significant plagiarism, copied content, or unethical use of copyrighted material shall be rejected immediately.
- Self-plagiarism and duplicate publication are also considered unethical practices.
- AI generated data is not acceptable.

If plagiarism or ethical misconduct is identified after publication, the paper may be withdrawn from the conference proceedings.

5. Conflict of Interest

Editors, reviewers, and authors must disclose any conflicts of interest that may influence the review or publication process before proceeding towards it.

Reviewers should not evaluate manuscripts in which they have:

- Personal relationships with authors
- Financial interests
- Collaborative involvement
- Institutional conflicts

Any identified conflict shall be handled appropriately by the editorial committee.

6. Research Misconduct and Ethical Violations

The conference strictly prohibits

- Plagiarism
- Data fabrication or false statements
- Duplicate submission/publication of any old published research article
- Citation manipulation
- Fake authorship
- Paper bugged submissions
- Unethical research practices

Any suspected misconduct will be investigated by the conference editorial committee. Appropriate actions including rejection, withdrawal, or reporting to affiliated institutions may be taken.

7. Retraction and Corrections Policy

If significant errors, ethical violations, or misconduct are identified in a published paper, the conference reserves the right to:

- Issue corrections
- Retract the paper
- Remove the paper from conference proceedings or digital records

8. Confidentiality

All manuscripts submitted to the conference shall be treated as confidential documents.

Editors and reviewers shall not:

- Share manuscripts with unauthorized persons
- Use unpublished material for personal research
- Disclose review discussions or decisions outside the official review process

9. Copyright and Licensing

Authors are responsible for ensuring that submitted work does not violate copyright laws or intellectual property rights.

Any copyrighted material used in the manuscript must have proper permission and acknowledgment.

10. Ethical Compliance

The conference encourages ethical research and publication practices aligned with internationally accepted academic and publishing standards.

All participants including authors, reviewers, editors, and organizers are expected to uphold integrity, transparency, and professionalism throughout the publication process.
